Executive Summary

The Department of General Services (DGS) operates the Statewide Pharmaceutical Program (SPP), which allows state and local governmental entities to access contracts that can provide substantial savings for purchasing pharmaceuticals and related pharmaceutical services.

SPP achieves savings on pharmaceuticals by leveraging the purchasing power of the participating entities to establish contracts. SPP contracts include a primary pharmaceutical wholesaler, pharmaceutical group purchasing organization, and pharmaceutical manufacturer pricing agreements on behalf of SPP participating entities. Four state agencies are mandated to participate in the SPP under California Government Code Sections 14977-14982. Twelve other state and local governmental entities voluntarily participate in SPP.

SPP participating entities have procured over 6,700 unique pharmaceuticals through SPP contracts between Q4 2022 and the end of Q3 2023. The total dollar value based on the Wholesale Acquisition Cost of all pharmaceuticals procured through SPP between Q4 2022 and the end of Q3 2023 was \$580.1 million. SPP participating entities spent \$378.8 million on these pharmaceuticals net of all discounts and rebates through the SPP contracts mentioned above. Therefore, the amount of savings achieved by SPP participating entities for the period between Q4 2022 and the end of Q3 2023 was \$201.3 million, representing 35% of the total dollar value.

Introduction

According to the Supplemental Report of the 2020-21 Budget Act, DGS is required to report annually, until February 1, 2024, to the budget committees of both houses and the Legislative Analyst's Office on the SPP and pharmaceuticals procured through the program. This report includes the following information for the period from Q4 2022 to the end of Q3 2023:

1. Name of each pharmaceutical procured through the SPP and the pharmaceutical's main therapeutic effects
2. Name of each SPP participating entity
3. Estimate of the total dollar value of the pharmaceuticals procured through SPP
4. Estimate of the amount of savings achieved through pharmaceutical purchases through SPP

Pharmaceuticals Procured through the Statewide Pharmaceutical Program

There were 6745 unique pharmaceuticals procured by SPP for the period between Q4 2022 and the end of Q3 2023. The American Hospital Formulary Service (AHFS) therapeutic classes were utilized to determine the primary usage of the pharmaceuticals and are referred to as the therapeutic effect in this report. Please refer to Appendix A.

Statewide Pharmaceutical Program and Participating Entities

The DGS Procurement Division's Pharmaceutical Acquisitions Section implements and administers the SPP, a prescription drug purchasing program. The SPP was established by California Government Code Sections 14977-14982. DGS is authorized to enter into exclusive or nonexclusive contracts to leverage statewide prescription drug purchasing with pharmaceutical manufacturers and suppliers. SPP participating entities can purchase pharmaceutical goods and related pharmaceutical services at discounted prices. This is due to DGS' ability to leverage the spend of multiple entities to negotiate lower drug pricing.

Government Code Section 14977.5(a) requires four state agencies to participate in the SPP:

- California Department of Corrections and Rehabilitation (CDCR)
California Correctional Health Care Services (CCHCS)
- California Department of Corrections and Rehabilitation, Division of Juvenile Justice (DJJ)
- California Department of State Hospitals (DSH)
- California Department of Developmental Services (DDS)

In addition, Government Code Section 14977.5(b) allows any state, district, county, city, municipal, or public agency governmental entity to elect to participate in the SPP. Voluntary participating entities include the following:

- California State University (CSU)
- University of California (UC)
- California Department of Public Health (CDPH)
 - Emergency Preparedness Office
 - Immunization Branch
 - Sexually Transmitted Diseases Control Branch
- California Emergency Medical Services Authority (EMSA)
- California Department of Veterans Affairs (CalVet)

- California Highway Patrol (CHP)
- Los Angeles County
- Sacramento County
- Orange County
- Kern County
- San Mateo County
- City and County of San Francisco

SPP leverages the purchasing power of participating entities to achieve savings on pharmaceuticals. SPP achieves these savings through direct contracting with a primary pharmaceutical wholesaler, pharmaceutical group purchasing organization, and pharmaceutical manufacturers for pricing discounts. DGS has established a contract with a primary pharmaceutical wholesaler (PPW) for direct purchase of pharmaceuticals that allow for volume discounts and statewide distribution of products. DGS utilizes a pharmaceutical group purchasing organization (GPO) to receive negotiated prices on drugs. DGS has established direct pricing agreements with pharmaceutical manufacturers for discounted prices on specific drugs. DGS developed and maintains the Common Drug Formulary (CDF) to provide guidance on drug selection for direct purchase of pharmaceuticals. The CDF includes members representing health care practitioners from CDCR, DSH, and CSU.

Primary Pharmaceutical Wholesaler

The PPW serves as the primary point for warehousing, data collection, reporting, and distribution of pharmaceutical products to SPP participating entities. SPP participating entities receive a cost-of-goods discount based on, but not limited to, overall purchase volume and terms of payment. The current contract states that mandated SPP participating entities must purchase at least 95% of pharmaceuticals, other than vaccines, through the DGS PPW.

Pharmaceutical Group Purchasing Organization

For most pharmaceuticals for which DGS does not negotiate directly with pharmaceutical manufacturers, DGS utilizes a GPO. A GPO identifies and executes contracts directly with drug manufacturers specifically to address the needs of the SPP participating entities to secure additional discounts. All pricing agreements are passed to the PPW.

SPP Pharmaceutical Pricing Agreements

For select high-cost pharmaceuticals, DGS negotiates pricing agreements directly with pharmaceutical manufacturers. DGS works with SPP stakeholders to determine high-cost medications and therapeutic categories to evaluate for inclusion in the CDF. DGS uses these criteria when negotiating directly with pharmaceutical manufacturers for pricing agreements. By negotiating directly with drug manufacturers for high-cost drugs, DGS can obtain steep discounts off Wholesale Acquisition Cost or receive a rebate linked to utilization, which significantly reduces drug costs for SPP participating entities.

In return for the discount or rebate, DGS may include the pharmaceutical manufacturer’s drug on the CDF, which provides preferential status for purchasing that increases the potential for utilization of that drug. DGS’ pricing agreements, on average, represented a 35% discount off Wholesale Acquisition Cost for the period between Q4 2022 and the end of Q3 2023.

Total Dollar Value of the Pharmaceuticals Procured through the Statewide Pharmaceutical Program

The total dollar value based on the Wholesale Acquisition Cost of all pharmaceuticals procured through the SPP for the period from Q4 2022 to the end of Q3 2023 was \$580.1 million. CDCR was the largest buyer, comprising 81% of the total drug spend amount. The table below breaks down the dollar value, spending, and savings by entities that participated during the period from Q4 2022 to the end of Q3 2023. The total dollar value and pharmaceutical spending in the table below include utilization from local governmental entities.

Total Pharmaceutical Dollar Value, Pharmaceutical Spend, and Savings by Participating Entity: Q4 2022 through Q3 2023

SPP Participating Entity	Dollar Value	Dollar Spend	Savings
CDCR	\$467,821,798.81	\$298,555,060.86	\$169,266,737.95
DSH	\$62,674,716.51	\$41,686,696.25	\$20,988,020.26
DDS	\$2,878,698.25	\$2,057,453.54	\$821,244.71
CSU	\$1,909,330.05	\$1,200,251.59	\$709,078.46
COUNTIES	\$42,892,722.28	\$33,979,115.31	\$8,913,606.97
CDPH, CHP & EMSA	\$1,716,080.50	\$1,164,238.85	\$551,841.65
DJJ	\$246,671.41	\$163,986.02	\$82,685.39
Total	\$580,140,017.81	\$378,806,802.42	\$201,333,215.39

Savings Achieved from Pharmaceuticals Purchased through

the Statewide Pharmaceutical Program

During the Q4 2022 through Q3 2023 period, the total value of pharmaceuticals purchased through SPP contracts was \$580.1 million, procured at a total cost of \$378.8 million. The amount of savings achieved from pharmaceuticals purchased through SPP was \$201.3 million, which represents a 35% savings.
